Separate paging is given to this Part in order that it may be filed as a separate compilation

PART III—SECTION 2

Notifications and Notices issued by the Patent Office relating to Patents and Designs

THE PATENT OFFICE Patents and Designs

Calcutta, the 9th April 1955

Applications for Patents

The dates shown in crescent brackets are the dates claimed under Section 78-A of the Act.

24th March 1955

- 54113. H. R. Saini, S. K. Paul and P. Singh. Power-wheel thrasher and winnower
 - 54114 R. S. Hemrajani and S. B. Peswani. Race book cover.
 - 54115. Estirajes Balmes, S. A. Improvements in drawing mechanisms for textile machines. [Addition to No. 50142].
 - 54116. Elektrokemisk A/S. Improvements relating to electrode supporting means for electric furnaces. [Addition to No. 45854].
 - 54117. E. Gretener. Process for the manufacture of embossed screens.
 - 54118. The General Electric Company Limited. Improvements in or relating to electric incandescent filament lamps. (30th March 1954).
 - 54119. Telephone Manufacturing Company Limited. An electric selecting device responsive to impulses. (19th January 1955). [Addition to No. 46958].
 - 54120. The United Wire Works Limited. Reticulated moulded sheet material and apparatus for the production thereof. (9th April 1954).
 - 54121. E. K. Cole Limited. Improvements in or relating to inductance coils. (25th March 1954).
 - 54122. Standard Telephones and Cables Limited. Improvements in or relating to the sheathing of electric cables. (28th May 1954).
 - 54123. F. Hoffmann-La Roche & Co. Aktiengesellschaft. Process for the manufacture of pyrazone compounds.
 - 54124. Douglas Fraser & Sons Limited. Apparatus for reeling sliver from rolls to caras, drawing frames, spinning frames or like textile frames. (24th March 1954).
 - 54125. G. & J. Weir Limited. Improvements in or relating to evaporators. (24th March 1954).
 - 54126. Säurefabrik Schweizerhall. Process for the selective chlorination of iron oxide in raw materials containing titanium and iron oxide.
 - 54127. Ciba Limited. Manufacture of dehydro-compounds of the steroid series.
- 25th March 1955
- 54128. M. G. Kale. Straw board comb filling frame.
 - 54129. Tootal Broadhurst Lee Company Limited. Improvements in shuttles for weaving looms. (26th March 1954).
 - 54130. Imperial Chemical Industries Limited. Improvements in or relating to the melting of high melting point metals or alloys. (2nd April 1954).

- 54131. Imperial Chemical Industries Limited. Manufacture of natural and synthetic rubbers and rubber articles. (9th April 1954).
- 54132. J. R. Geigy A-G. Optical brightening agents.
- 54133. T. Hindmarch. Improved epicyclic gearing. (31st March 1954).
- 54134. Deutsche Gold und Silber-Scheideanstalt vormals Roessler, and Leybold Hochvakuum-Anlagen GMBH. Process for manufacture of metallic thorium.
- 54135. Standard Telephones and Cables Limited. Improvements in or relating to automatic telecommunication exchange systems. (2nd September 1953). [Divisional date, September 1, 1954].
- 54136. Standard Telephones and Cables Limited. Improvements in or relating to automatic telecommunication exchange systems. (2nd September 1953). [Divisional date, September 1, 1954].
- 54137. Ciba Limited. Process for the preparation of a new diol.

23th March 1955

- 54138. C. Zang. Improvements relating to writing instruments.
- 54139. Ray-O-Vac Company. Improvements relating to electric primary cells. (7th January 1955).
- 54140. Ciba Limited. Pharmaceutical preparations containing aryl-piperidyl-acetic acid esters. [Divisional date, January 5, 1954].
- 54141. S. Smith & Sons (England) Limited. Improvements in or relating to magnetic clutches.

28th March 1955

- 54142. V. R. Barve. Cotton-wastes recovery process.
- 54143 Mrs. Bimla Sanon. An improved electric water heater.
- 54144. A. B. Maira. Improvements in a tricycle or the like vehicles.
- 54145. A. Moro. A beach and garden parasol.
- 54146. N. V. De Bataafsche Petroleum Maatschappij. Finely divided solid and process of its preparation.
- 54147. A. Kraus and H. Kraus. Improvements in or relating to the production of solid or semi-solid compositions.
- 54148. Siemens Brothers & Co. Limited. Improvements relating to contact spring assemblies. (21st April 1954).
- 54149. The Incandescent Heat Company Limited and J. T. Fallor. Improvements in regenerative furnaces. (31st March 1954).
- 54150. E. I. Du Pont De Nemours and Company. Vulcanizable chloro-sulfonated polymers.
- 54151. Metal Closures Limited. Improvements in or relating to closures for bottles and like containers. (10th January 1955).

54152. Crompton Parkinson Limited. Improvements relating to electric arc stud welding.
54153. The Bradford Dyers' Association Limited. Improvements relating to the shrinking of collars and other fabric articles.
54154. E. Green & Son Limited. Improvements for the prevention of corrosion in the high efficiency heat recovery plant ancillary to vapour generators. (13th May 1954).
54155. George Turton, Platts & Co. Limited. Means for keying railway rails to rail chairs.
54156. Daimler-Benz Aktiengesellschaft. Improvements relating to frames for motor vehicles. (21st January 1955).
54157. Lightning Implements Proprietary Limited. Improved means for connecting implements to tractors.
54158. Ciba Limited. Process for copying on to lenticular films.

29th March 1955

54159. Automatic Telephone and Electric Company Limited. Improvements in telephone systems. (24th April 1954).
54160. N. V. De Bataafsche Petroleum Maatschappij. Process for preparing reaction products of ethoxylane condensates.
54161. Imperial Chemical Industries Limited. Improvements in or relating to titanium base alloys. [Divisional date June 1, 1954].
54162. The English Electric Company Limited. Improvements in and relating to interlocking mechanisms. (30th April 1954).
54163. P. Heimann. Improvements relating to watches and like horological instruments. (24th May 1954).
54164. V. M. J. Ancet and M. dit M. Fayolle. Shuttleless Weaving loom. (26th May 1954).
54165. G. & J. Weir Limited. Improvements in or relating to evaporators. (30th March 1954).
54166. Ciba Limited. Active substance and process for manufacturing same.
54167. L'Auxiliaire Des Chemins De Fer Et De L'Industrie. Distributing and measuring device for a liquid reagent.

30th March 1955

54168. Libbey-Owens-Ford Glass Company. Apparatus for bending sheets of glass or the like.
54169. Libbey-Owens-Ford Glass Company. Bending apparatus for glass sheets.
54170. Dunlop Rubber Company Limited. Improvements in or relating to cushiontyred wheels.
54171. Dunlop Rubber Company Limited. Improvements in or relating to solidtyred wheels.
54172. Dunlop Rubber Company Limited. Improvements in or relating to the manufacture of belting. (10th April 1954).
54173. N. V. Philips' Gloeilampenfabrieken. Improvements in or relating to film projection apparatus.
54174. N. V. Philips' Gloeilampenfabrieken. Improvements in or relating to a method of welding rails.
54175. N. V. Philips' Gloeilampenfabrieken. Improvements in or relating to a circuit arrangement for converting a low voltage into a high direct voltage.
54176. J. Stone & Company (Deptford) Limited. Improvements relating to windings for electromagnets. (31st March 1954).
54177. W. Murray. Improvements in and relating to unions for connecting pipes and the like to a rotary member.
54178. Hüttenwerk Oberhausen Aktiengesellschaft. Blowing nozzle for the refining of metals.
54179. N. V. Onderzoekingsinstituut Research. A process for the manufacture of viscose rayon threads and fibres.
54180. F. Hoffmann-La Roche & Co. Aktiengesellschaft. New basic amines and a process of manufacturing the same.

Alteration of Date

51827. The claim to priority date 13th May 1953 has been abandoned and the application dated as of 5th May 1954, the date of filing in India.

Applications Accepted

Notice is hereby given that all persons interested in opposing the grant of patents on any one of the applications referred to below may at any time within four months of the date of this Gazette of India give notice to the Patent Office in the prescribed form No. 6 of the Indian Patent and Designs Rules, 1933, of such opposition.

A limited number of printed copies of the specifications in the following list will be available for sale from the Manager of Publications, Civil Lines, Delhi, and also on cash payment at the counter of the Government of India, Central Book Depot, 8, Hastings Street, Calcutta, in the course. The price of each specification is Rs. 2 (postage extra, if sent out of India). Requisition for the supply of printed specifications should be accompanied by the numbers of specifications as shown in the following list.

If required typed copies of the specification together with copies of drawings, if any, can be supplied by the Patent Office, on payment of the necessary charge which may be ascertained on application to the office.

The dates shown in crescent brackets are the dates allowed under Section 78-A of the Act.

49843. International Business Machines Corporation. Circuits for electronic counters or the like. (13th February 1953). Accepted on 28th March 1955.

Comprising a pair of transistors, each with a base, a collector and an emitter electrode, the emitter-base paths being serially connected and means for applying voltages to the electrodes including a load impedance connected to one of said collector electrodes.

50334. The General Electric Company Limited. Improvements in or relating to the manufacture of electrical devices having a sealed evacuated envelope. (1st October 1952). Accepted on 24th March 1955.

Electric device with a hole resistering with a hole in exhaust chamber, the device is then heated and after introduction of the envelope filling, if any, a washer is applied from the exhaust chamber, to the glass surface of the electric device, in or around the hole.

50337. Gutehoffnungshütte Oberhausen Aktiengesellschaft. Improved method and apparatus for treating molten iron. Accepted on 25th March 1955.

Treating iron melt with magnesium in a form between pure magnesium and a pre-alloy containing atleast 40 per cent magnesium, magnesium being introduced through an apparatus arranged outside the treatment vessel.

50350. Aktiebolaget Svenska Flaktfabriken. An improved method and apparatus for supporting and conveying web-like materials along a transporting path. Accepted on 28th March 1955.

Gaseous medium is supplied towards the lower side of the web-like material and is conducted away in the same direction as the transporting direction of said material.

50353. National Lead Company. Flotation process for treating ore concentrates. Accepted on 25th March 1955.

Comprising adding to titaniferous concentrate a collector, a frother consisting of an alkali metal hexametaphosphate and an acid to render the bath acidic.

50373. The Canadian General Electric Company Limited. Dynamoelectric machine rotor. (11th October 1952). Accepted on 24th March 1955.

Having a pole body integral with the rotor body, a detachable pole shoe and a coil surrounding the pole restrained from outward movement by the pole shoe.

50454. S. P. Kambli and N. P. Kambli. An educational game based on the commercial geography of the world. Accepted on 25th March 1955.

Comprising world map or its part with routes marked, as a playing board, each player moving a pawn on these routes depending on figures cast by dices and mock currency notes with playing for buying and selling commodities at places reached, as given in Information Cards, the buying and selling prices determined by indicator whose pointer also moved according to figure cast by dices, the game terminated after fixed time

50570. Armstrong, Patents Co. Limited. Improvements in valves for telescopic hydraulic shock absorbers. (5th December 1952). Accepted on 26th March 1955.
- Comprising a piston rod having piston mounted thereon and having a valve chamber communicating with the piston, a valve spindle having a valve plate slidable thereon and elastic pressure means to maintain the latter in position.*
50594. J. R. Geigy, A.-G. Xanthine derivatives. Accepted on 24th March 1955.
- Reacting 1,3-dialkyl-xanthine or -thioxanthine with an alkane diol or a reactive derivative thereof.*
50728. Hoover Limited. Improvements relating to washing machines. (1st December 1952). Accepted on 25th March 1955.
- Having washing liquid container, impeller therein and suction squeeze drier characterised in that same motor drives the impeller and suction pump permanently connected together.*
50804. Council of Scientific and Industrial Research. Synthetic tanning materials. Accepted on 26th March 1955.
- Dehydrating the sulphonated condensation product of phenols and formaldehyde acylating with acetic anhydride and treating the product with sodium sulphite.*
50939. Goodyear Aircraft Corporation. Improvements in convertible aircraft. Accepted on 24th March 1955.
- An aircraft operable both as an airplane and as a helicopter with a longitudinal air duct and a well housing a pair of counter-rotatable variable pitch rotors.*
51157. Lockspike Limited. An improved fastening spike for use in the laying of railway tracks. Accepted on 26th March 1955.
- With a head portion and two legs converging to form a wedgeshape zone below it.*
51198. The Permutit Company Limited. Improvements relating to the manufacture of articles of ion-exchange resins. (11th February 1953). [Addition to No. 43943]. Accepted on 28th March 1955.
- By polymerising a compound containing a polymerisable double bond and an acidic or basic group with a cross-linking agent and water to make the product water saturated.*
51395. The General Electric Company Limited. Improvements in or relating to electric signalling systems of the kind using pulse code modulation. (5th March 1953). Accepted on 25th March 1955.
- Including first and second integrating circuits and means to generate train of pulses which decrease in geometric progression with a common ratio of one half.*
51436. Schlumberger Well Surveying Corporation. Induction logging apparatus for investigating the electrical conductivity of earth formations. Accepted on 26th March 1955.
- Including transmitter coil means mounted for movement in proximity to some earth formations, receiver coil means disposed in fixed relation to the transmitter coil means for inductive coupling therewith.*
51449. Prof. Dr. T. Reichstein. Process for the manufacture of hydrophenanthrene compounds. Accepted on 28th March 1955.
- By treating a corresponding hydrophenanthrene compound with an alkali metal in the presence of a nitrogen base and an alcohol and hydrolyzing the resulting product.*
51503. The Wellcome Foundation Limited. Improvements in or relating to new pharmaceutical compositions. Accepted on 26th March 1955.
- Comprising 1:4 bis (p-dimethylaminophenoxy) butane or 1:6 (p-dimethylamino-phenoxy) hexane or acid salt thereof together with a neutral excipient.*
51637. Sandoz, A. G. New process for the preparation of ergotamine ergotaminine and ergometrine. Accepted on 24th March 1955.
- A culture medium containing zinc and iron ions is inoculated with strain of *Claviceps purpurea*, incubated and alkaloids extracted with organic solvents.*
51698. The English Electric Company Limited. Improvements relating to inductive windings. (29th April 1953). Accepted on 30th March 1955.
- Consisting of one or more groups, each group consisting of a plurality of pairs of annular sections, one section of each pair having its conductors spiralling inwardly and the other having its conductors spiralling outwardly.*
51772. T. M. M. (Research) Limited. Improvements in textile combing and other machines. (29th July 1953). Accepted on 25th March 1955.
- Subjecting the slivers simultaneously to a single drawing operation performed by passing the slivers side by side through two successive pairs of rollers rotating at constant speed, the second pair having a surface speed higher than that of the first.*
51827. The National Smelting Company Limited. Improvements in or relating to smelting of metalliferous materials in a blast furnace. Accepted on 30th March 1955.
- Air blown into blast furnace is preheated to such an extent that a reducing environment is maintained at a temperature high enough to reduce and volatilise zinc.*
51924. S. M. Shamsie. Improvements in or relating to cocks. Accepted on 29th March 1955.
- Comprising threaded plug screwed into outer end of a housing, a rotatable valve spindle passing through said plug, a valve head at the end of spindle, said valve head engaging valve housing.*
51931. Continental Can Company, Incorporated. Art of making closure seals. Accepted on 30th March 1955.
- A disc of thermo-adhesive composition is heated, shaped under pressure and cured after removal of pressure.*
51937. Dr. L. Thoria and V. P. Gohel. An improved process for the manufacture of bamboo pulp for use in the production of paper; rayon and the like. Accepted on 29th March 1955.
- Bamboo chips are first treated with water, at a temperature ranging from 100°C to 190°C for a period of 1 to 10 hours.*
51941. Chubb and Son's Lock and Safe Company Limited. Improvements in and relating to permutation locks. (19th June 1953). Accepted on 29th March 1955.
- Includes operable snap-action means for controlling movement of the connecting lever from a position of disengagement towards a position of engagement, with the driver, and into engagement therewith.*
51978. Chubb & Son's Lock and Safe Company Limited. Improvements in and relating to locks. (29th June 1953). Accepted on 29th March 1955.
- Providing displaceable supporting means for holding said connecting means out of engagement with the driver.*
52242. Oskar Biegel G.m.b.H. Verkaufskontor and O. Biegel. Improvements in hose pipe connections and the like. Accepted on 24th March 1955.
- Consisting a nozzle over which the end of a hose is pushed, a coiled spring encircling the hose pipe and means for applying pressure such that by moving the hose the spring moves into the narrow part of a cone.*
52295. Garware Finance Corporation Limited. Improved thermo-plastic closures for rigid, semi-rigid or flexible containers. Accepted on 28th March 1955.
- The closure has a peripheral groove with its edges tapered so that a correspondingly shaped rim of a container is gripped therein.*

53412. Ciba Limited. New monoazo-dyestuffs and process for making same. Accepted on 29th March 1955.
Coupling diazo compounds of the benzene series with 5-pyrazolones.

53480. Imperial Chemical Industries Limited. Treatment of polyamide textile materials. (14th August 1953). Accepted on 29th March 1955.

Treating the textile material with a reaction product of dicyandiamide, cyanamide or guanidine with a linear polyakyleneimine.

53553. G. A. M. Petersen. Pilot bit for earth boring tools. Accepted on 29th March 1955.

Comprising a cone shaped body formed integrally with a pair of blades and extending radially, the blade having a concave-convex cross-section radially from the longitudinal axis of the bit.

53595. F. S. Lapeyre, J. M. Lapeyre, E. M. Lapeyre, A. C. Lapeyre, F. H. Lapeyre and F. E. Riess. Improvements in or relating to shrimp de-veining machines. Accepted on 26th March 1955.

Comprising an inclined trough, a water supply to said trough, and knives carried by said trough extending partially diagonally.

53606. Cilag Limited. New chemo-therapeutically active salts. (4th February 1954). Accepted on 26th March 1955.

Reacting $\text{NH}_2\text{-C}_6\text{H}_4\text{-SO}_2\text{-C}_6\text{H}_4\text{-NH-(alkyl)-COOH}$ with an organic base.

53690. N. V. Philips' Gloeilampenfabrieken. Improvements in or relating to arrangements comprising an X-ray device having an electronic image-amplifying tube. Accepted on 28th March 1955.

Objective and magnifying glass arranged behind the image-amplifying tube and a transparent screen having light diffusing properties, which screen may be removed, being arranged at the area at which an image of the electron-cathode-amplified X-ray image is produced by the objective.

53774. Carding Specialists (Canada), Limited. An improvement in or relating to the treatment of carded webs of textile fibres in a carding machine. Accepted on 24th March 1955.

Comprising in combination a card-clothed doffer roller rotated in the same direction as the lower pressure roller and a card-clothed stripping roller rotating in the opposite direction.

53778. Societe Des Usines Chimiques Rhone-Poulenc. Purification of chlortetracycline (24th August 1954). Accepted on 25th March 1955.

By extracting cake containing chlortetracycline as a salt of calcium, Ba, Sr, Mg with acidified normal propanol or tertiary butanol, adding to the alcoholic extract water soluble chloride and isolating chlortetracycline.

53787. N. V. De Bataafsche Petroleum Maatschappij. Process for the preparation of ammonium sulphate. Accepted on 24th March 1955.

A double salt of calcium sulphate and ammonium sulphate is reacted with a solution of ammonium carbonate which is obtained by passing ammonia and carbon dioxide into a solution of ammonium sulphate of a particular concentration.

53803. American Cyanamid Company. Improvements relating to the production of cyanamide and/or melamine. (30th April 1954). Accepted on 24th March 1955.

Heating a vapour mixture of HCN and oxygen to a temperature of at least 350°C in the presence of a catalyst of an inert adsorptive material with high internal surface and/or volume.

53992. H. Bergerhoff. Focal plane shutter for cameras. Accepted on 29th March 1955.

Comprising leading and following shutter curtains, common driving member for them, impact elements coupling the curtains to the driving member and adjustable stop with which the impact element of the following shutter curtain co-operates in an adjustable yielding manner.

53063. Norsk Hydro-Elektrisk Kvelstofaktieselskab. Process for crystallization of nitrates from nitric acid solutions of calcium phosphate. Accepted on 24th March 1955.

Solution is cooled in batches and crystallization in each charge is initiated by adding seed crystals of calcium nitrate when the temperature of solution is between 2 and 10°C below saturation temperature.

53258. William Ayrton & Co. Limited and F. Osborne. Improvements in or relating to the sizing and polishing of yarns. (9th December 1953). Accepted on 26th March 1955.

Arranging yarn over guides to form a closed polygonal geometric figure around rotary brush.

53261. Standard Telephones and Cables Limited. Improvements in or relating to thyatron controlled rectifier power supply units. (11th December 1953). Accepted on 29th March 1955.

Comprises a bridge arrangement of rectifiers including thyatron and means for controlling the firing of the thyatron.

53563. American Cyanamid Company. Improvements relating to the preparation of substituted heterocyclic sulfonamides and intermediates thereof. (18th November 1954). Accepted on 26th March 1955.

By passing chlorine through corresponding benzyl mercapto derivative and reacting the product obtained with ammonia.

53577. Dunlop Rubber Company Limited. Improvements in or relating to the manufacture of belting. (2nd February 1954). Accepted on 25th March 1955.

Heating each ply to a temperature at which the thermoplastic material fuses, applying pressure to the plies in superposed relationship while maintaining the plies in their heated condition and then cooling the same.

Opposition Proceedings

The opposition entered by Vijnana Parishat to the grant of a patent on application No. 49178 made by Miss A. Mohajir, D. S. Datar and S. H. Zaheer, and notified in Part III, Section 2, of the Gazette of India dated 10th July 1954, has been allowed in part. A patent will be sealed subject to amendment of the specification.

Printed Specifications Published

A limited number of printed copies of the undernoted specifications are available for sale from the Manager of Publications, Civil Lines, Delhi, or on cash payment at the counter of the Government of India Central Book Depot, 8, Hastings Street, Calcutta, at two rupees per copy:—
